

KOMOJU INTEGRATION

- First of all, you need to create an account in [KOMOJU](#) and if you have account just login
- After then go to the Merchant Setting where you will find the secret key.

- Then, go to the sandbox create Payment Processor and create a field on payment processor through custom preference.
- Paste the secret key in that field.
- Assign the payment processor to credit card method.
- And your integration will be Done.
- Upload the cartridge and assign to your site.
